Radiator, Replaced But Haven't Found Date When

Added A Driver's Swing Table/Cup Holder And Co-Pilot Console With Power Brick In 2022

We Added A Directional Deflector For The Front Overhead A/C To Direct More Air To Cockpit Area, Can Be Easily Removed

We Added Digital Thermostats To The Three Cruise Airs For Easier Temperature Control, We Remove Them And Remove The Batteries When Not In Use, As To Prevent Leaking From Batteries Ruining Matching Stats

We Upgraded Most Of The Lighting To Led, So Some Dimmers Are Bypassed Inside Switch Boxes

Both Kitchen And Lav Faucets Were Changed, As Were Drains

Outlet Was Added To Kitchen Counter To Replace Old Nutone Blender Base

Outlet Was Installed In Kitchen Lower Cabinet To Allow Cords For Portable Appliances To Route Down And Out Of The Way

Replaced Non-Working Refrigerator With New 120v Two Door Refrigerator

Added Shelving To Bath Wardrobe (Can Be Removed)

Changed Bathroom Exhaust To Maxaire Automatic Rainshield Exhaust

Routed Microwave/Convection Oven Exhaust Through Roof

Replaced Gas Struts On Some Doors, Have Rest For New Owner To Install

Has New Dash A/C Compressor And Dryer, But It's Not Holding Good Vacuum, Ran Out Of Time To Find Leak Before Last Trip, Then Bought Newer Bus So Have Not Tried To Find Where Leaking, As Even If We Found One Leak, That Does Not Mean There Are Not More So Still Couldn't Guarantee System
