CUSTOM ORDER LETTER OF AGREEMENT

1. As of the date of this signing, all selections are final. Changes, additions or deletions at the request of the client may result in additional expense to the client and/or a revision of the date of delivery.

2. Assignment of the exact production slot for a custom coach will only occur after the coach specifications are finalized. If there are significant open issues or unanswered questions after the customer spec meeting, it will most likely require a later production slot to be utilized.

3. Changes, additions or deletions will generally not be possible once the coach enters production. Changes after that point are typically processed through the Marathon Service Center on a quoted or time and material basis.

4. Due to innovations and improvements within the motorcoach industry, Marathon Coach reserves the right to substitute equal or better quality equipment or materials as warranted.

5. Marathon Coach works to a very aggressive production schedule. While every effort will be made to meet the "goal" delivery date, generally the actual delivery date will be 2-4 weeks after the goal date. Allowing the necessary time at the end of production for "Quality Assurance" testing is critical to the overall quality and reliability of each coach. Around 60 days from coach completion, your sales person will communicate the projected final delivery date for your coach.

9. ELECTRICAL/POWER MANAGEMENT

#1151 Page 20 of 36

9.1. Techlink™ "intelligent" electrical control system includes:

1. Multiple module network system
2. Dash monitor to display coach systems status:
 1. *See "13. Communication/Information Systems" (pg. 28) for display details*
3. Integrated modem for remote diagnostic service capability
4. Custom switch group panels:
 1. Individually illuminated, status-indicating membrane switches
 2. Switches have re-label and re-program capability
 3. Switch group trim: **Black**

9.2. Shore power system includes:

1. Marathon T-50 "Smart Plug" shore power monitoring system
2. Automatic shore/generator power transfer switching
3. 50 amp power cord - includes electric winder and remote control
4. Single 30 amp and 15 amp shore power adapters

9.3. Kohler 20 kW turbo-charged generator includes:

1. Installed on rollout rack: **H3-45 - Located in bay 3 curbside**
2. Pressure regulated air bag mounts
3. "Generator Start" switch located at dash
4. Extensive sound deadening of generator compartment
5. Exhaust system: **Roof exhaust (optional - floor plan & chassis specific)**

9.4. House battery system includes:

1. Six 4D house batteries **H3-45 - Located behind curbside rear fender**
2. One isolated Group 24 generator battery
3. Roof mounted solar panel for trickle charge of the generator battery
4. Two 140 amp, 24 volt, engine-driven alternators for house battery charging
5. Auto-Gen" battery charging system - *generator starts automatically to charge house batteries*

9.5. Chassis battery system includes:

1. 140 amp, 24 volt, engine driven alternator for chassis battery charging
2. Internal jump start capabilities between house and chassis batteries
3. Dash mounted switch and indicator for battery jump start system

9.6. Two Trace 4000 inverter/chargers include:

1. Inverter location: **H3-45 Valid slideout - bay 4 driverside**
2. Fan ducted exterior ventilation
3. Interior remote controls: **Located in water closet medicine cabinet**
4. Two *emergency* inverter bypass switches

9.7. 12 volt power system includes:

1. DC breaker panel **Located in bathroom medicine cabinet**
2. Power outlets at instrument dash and behind pilot seat

9.8. 110 volt power system includes:

1. AC breaker panel **Located in bedroom medicine cabinet**
2. Decora style convenience outlets located throughout interior
 1. Outlet color: **Black**
3. GFCI breaker controlled outlets in all applicable locations
4. GFCI block heater and convenience outlet at engine compartment

9.9. Miscellaneous control switches include:

1. Salon slideout control: **H3-45 Valid - In endtable behind pilot seat**
2. Bedroom slideout control: **Linen cabinet**
3. Extra auxiliary control switches for after-market installed options

See page 21 for modifications to Electrical/Power Management

10. CLIMATE CONTROL/VENTILATION

#1151 Page 22 of 36

10.1. Marathon "Climate Control" system for *automatic* cool/heat operation that includes:

1. Control of air conditioning, 12 volt heat and 110 volt heat
2. SMX infra-red remote control pads (includes remote control through Crestron remotes)
3. Remote controlled breakers at dash for A/C units

10.2. Air conditioning system as follows:

1. A/C quantity & brand: **Four Coleman roof air units**
2. Capacity & type: **13,500 BTU A/C-Heat pump system**
3. Ducting details: **Hidden vent ceiling ducted exhaust (standard on roof air)**
4. Installation details: **Exterior housings painted to match coach**
5. Bathroom discharge vent
6. "Quiet cool" salon and bedroom controls

10.3. Heating system as follows:

1. Diesel fired 40,000 BTU Webasto furnace (hydronic) system that includes:
 1. Multiple heat exchangers: **Cockpit, galley, bathroom and bedroom**
 2. Water heater heat source
 3. Additional bedside switches to control 12 volt heat and 12 volt water heaters
2. Toekick style 110 volt heaters (climate controlled heaters) as follows:
 1. Heater locations: **Cockpit, galley and bedroom**
3. Independent 110 volt heaters include:
 1. Bathroom heater with local thermostat and ON/OFF convenience switch
 2. Plumbing bay heater with remote thermostat

10.4. Ventilation system includes:

1. "Fantastic" exhaust fan installed in bathroom which includes:
 1. Tinted exterior fan cover with rain sensor
 2. Remote thermostat with ON/OFF switch
 3. Solid surface ceiling grill (in the shower ceiling)
2. Wall mounted exhaust vent fan in all water closets which includes:
 1. Custom mirror fan cover

11. INTERIOR LIGHTING

#1151 Page 24 of 36

11.1. Flush 12 volt spot lighting as follows:

1. "Soft start" *step on* and *fade off* lighting control
2. Master light switch at entrance and bedroom that controls all 12 volt lights
3. Set of interior light controls installed at instrument dash
4. Multi-position dimming control from lighted switches - includes Crestron control of ceiling light
5. Lower temperature "Xelogen" light bulbs
6. Spot light trim rings: **Black trim rings**
7. Multiple locations as follows:
 1. Pilot and copilot cockpit lights
 2. Salon, galley, bathroom and bedroom ceiling lights
 3. Underside of galley and dinette upper cabinets
 4. Bathroom and bedroom vanity lights (*floor plan dependent*)
 5. Swivel spotlights at the head of the bed for reading

11.2. Micro-switched interior cabinet lighting includes:

1. Under all galley sinks
2. Under all vanity sinks
3. Inside all hanging wardrobe cabinets

11.3. 12 volt, "rope" accent lighting includes:

1. Countertop perimeters (*not applicable to some countertop designs*)
2. Entrance steps
3. Window sills
4. Bed top perimeter
5. Rear wardrobe steps (*XLVII2S walk-in wardrobes*)

11.4. Window treatment accent lighting as follows:

1. Salon valances: **LED Flex lighting**
2. Salon post covers: **Not applicable**
3. Bedroom valances: **LED Flex lighting**
4. Bedroom post covers: **Not applicable - blind guides incorporated into cabinetry**
5. Salon soffit lights: **Not applicable**
6. Bedroom soffit lights: **Not applicable**
7. Shower window lighting: **Not applicable**

11.5. Miscellaneous 12 volt lighting includes:

1. Pilot and copilot map lights with halogen bulbs and 7" flexible arms
 2. Switched lighting in all walk-in wardrobes (*36" fluorescent light*)
 3. **Fiber optic ceiling lighting** - see "4. Ceiling/Window/Wall Treatments" (pg. 10) for locations
 1. Illuminator type: **4 color, dual wheel illuminator**
 2. Illuminator location: **With the inverters in the underbelly**
 4. LED accent lighting as follows:
 1. Curbside dash: **Blue (standard)**
 2. Entry door logo: **Blue (standard)**
 3. Door safety lighting: white LEDs that shine on ground to light entry
 5. Lights in each bunk for bunk bed floor plans
- See page 25 for modifications to Interior Lighting***

12. AUDIO/VIDEO SPECIFICATIONS

#1151 Page 26 of 36

12.1. Coach-wide audio/high definition video system includes:

1. Crestron remote audio/video control system as follows:
 1. Salon touch screen remote control with countertop charging station
 2. Bedroom touch screen remote control with wall mounted docking/charging station
 3. Provides independent zone control of salon, bedroom and underbelly A/V systems
 4. Includes Crestron selected video at back-up and copilot monitors (disabled with engine run)
 5. Includes lighting controls for all ceiling lights
 6. Includes control of the cockpit, salon, galley, dinette and bedroom window blinds
 7. Includes climate control of heating and air conditioning system
 8. Includes custom "Theater" button for one touch control of lights, blinds & A/V equipment
2. One DVD player
3. KVH in-motion Digital Satellite System as follows:
 1. Two DSS receivers: one standard and one with integrated DVR (digital video recorder)
 2. Satellite dome painted to match exterior
4. Color rear view camera-low light with pan/tilt and two side view cameras
5. Braund Concord VHF/UHF tunable roof mounted television antenna
6. Cable television shore receptacle provided with a 25 ft. coaxial television shore cable
7. Remote control source selection-all TVs receive:
 1. DSS, Cable TV (landline), VCR, DVD & Techlink screens

12.2. Cockpit/Salon audio/high definition video system as follows:

1. Clarion *Pro Audio Series* AM/FM/CD with remote (*includes AM/FM roof antenna*)
2. Delphi "Skifi" XM satellite radio (plays through cockpit, bedroom & underbelly stereos)
3. Clarion Pro Audio Series CD changer with six disc magazine
4. Two Clarion *Pro Audio Series* speakers in the cockpit
5. Four Paradigm speakers installed in the salon ceiling
6. One Paradigm subwoofer **In dinette base**
7. Surround sound receiver including center channel speaker
8. One high definition 42" salon television as follows:
 1. Salon TV size/type: **42" LCD television**
 2. Salon TV sound: **Plays through salon stereo system (standard)**
 3. Salon TV installation: **Motorized, flip down from cockpit cabinetry**
 4. Salon TV features: **42" flip down TVs include heavy duty travel lock**

12.3. Bedroom audio/video system as follows:

1. Clarion Pro Audio Series AM/FM/CD deck with remote (*includes AM/FM roof antenna*)
2. Two Paradigm speakers installed in the bedroom ceiling
3. One bedroom high definition television as follows:
 1. Bedroom TV size/type: **32" LCD television (standard)**
 2. Bedroom TV sound: **Plays through bedroom stereo speakers (standard)**
 3. Bdrm TV installation: **Installed in bedroom curbside cabinet**
 4. Bedroom TV features: **Not applicable**

12.4. Underbelly entertainment center as follows:

1. Clarion Pro Audio Series AM/FM/CD deck with remote (*includes AM/FM roof antenna*)
2. Two shielded stereo speakers
3. One underbelly high definition television as follows:
 1. Underbelly size/type: **32" LCD television (standard)**
 2. Underbelly TV sound: **Plays through underbelly stereo speakers (standard)**
 3. Underbelly TV install.: **Installed in underbelly entertainment center (standard)**
 4. Undbelly TV features: **Installed on pull-out (standard)**

12.5. Floor plan specific audio/video systems as follows:

1. Additional salon HD TV: **23" LCD TV in forward slideout display cabinet (standard)**
 1. Features include: **Fixed installation in the top of display cabinet (standard)**
2. Bunk beds (each bunk): **TV, stereo and headphones - see Modifications for details**

13. COMMUNICATION/INFORMATION SYSTEMS

#1151 Page 28 of 36

13.1. Communication systems include:

1. Citizens band radio system as follows:
 1. Cobra *handheld* 40-channel radio
 2. Roof mounted antenna
2. Landline telephone system as follows:
 1. Exterior phone inlet
 2. Phone jacks at endtable behind pilot, dinette, nightstands & underbelly entertainment bay
3. Pre-wired cellular telephone cable and antenna lead
4. Door bell with lighted exterior switch

13.2. Information systems include:

1. Dash mounted 7" color flat screen monitor for displaying:
 1. Rear view camera
 2. Generator status
 3. Power supplies status
 4. Plumbing tank levels
 5. Temperatures - inside/outside/bay
 6. Contact phone numbers
2. Kenwood *voice prompted* , dual GPS mapping systems include:
 1. Two complete systems- one for pilot and one for copilot
 2. 6.95" touch screen pilot monitor installed at dash
 3. 6.95" touch screen copilot monitor installed on flexible arm
 4. Two roof mounted antennas
3. Pre-wired for personal computer hook-up:
 1. Separate phone jack and 110 volt power for stand-alone computer

13.3. Warning systems include:

1. Prevost burglar alarm including:
 1. Two remote key fobs
 2. Motorized deadbolt
 3. Keyless entry
2. TV "Antenna-Up" warning indicator light with ignition switched on
3. Inverter power loss indicator light with audible warning
4. Shore power On and shore power Loss indicators at the dash
5. Carbon monoxide (CO) detector installed in the galley area
6. Smoke detector installed in the galley

14. PLUMBING SPECIFICATIONS

#1151 Page 30 of 36

14.1. Underbelly plumbing specifications include:

1. Seamless, non-corroding, polyethylene water and holding tank system as follows:
 1. Plumbing capacities: **H3-45: 165 gal. fresh, 94 gal. gray and 60 gal. black**
 2. Pre-connected sewer hose with powered extend and retract
 3. Electrically operated gray and black tank dump valves (*manual valve on fresh tank*)
 4. Gray and black tank flush system
 5. Automatic fresh water tank fill with remote switch and cockpit indicator
 6. Gravity fresh water tank fill spout
 7. Sewer hose dump adapter with waterproof storage bag
2. Two 10.5 gallon water heaters include:
 1. Two separate heat sources - 110 volt and 12 volt
 2. Plumbed in series
3. Commercial grade, 1/2" full-flow pressure regulator for city water inlet
4. Pre-filtered shore water inlet and secondary drinking and ice water filters
5. 110V AC high output water pump with "enabled" indicator, switched in plumbing bay
6. 12 volt *back-up* water pump, switched in plumbing bay and at the 12 volt breaker panel
7. Poly water lines with hot and cold chrome-plated copper manifolds
8. Hot and cold water at exterior plumbing bay with adjustable faucet
9. Fresh water hose (25 foot long)

14.2. Galley plumbing specifications include:

1. Filtered drinking water and ice
2. Designer, solid surface galley sink(s) with sink covers (floor plan specific, see 14.5.1.)
3. Designer galley faucet with pull-out sprayer
4. Switched In-Sink-Erator hot water dispenser

14.3. Bathroom plumbing specifications include:

1. Vitreous china toilet: **Thetford Tecma electric toilet**
2. Shower fixture includes:
 1. *Temperature controlled* thermostatic mixer valve
 2. Adjustable hand-held shower with glidebar
3. Shower enclosure/door as follows (*floor plan dependent*):
 1. Enclosure/door type: **Single flat glass shower door w/ one towel bar**
 2. Enclosure/door finish: **Brushed nickel**
4. Shower tray as follows (*floor plan dependent*):
 1. Shower tray style: **Solid surface tray**
 2. Shower tray color: **Corian / Fossil**
5. Shower walls as follows:
 1. Upper shower walls: **Solid surface**
 2. Lower shower walls: **Solid surface**
6. Shower accent band: **Custom - see modifications**
7. Shower caddy: **Custom - see modifications**
8. Shower seat: **Quarter round seat**

14.4. Floor plan specific plumbing specifications as follows:

1. Galley sink(s): **Color-matched double bowl solid surface sink**
2. Bathroom vanity sink: **Color-matched solid surface sink**
3. Bathroom vanity faucet: **Designer, accent-matched faucet**
4. Water closet sink: **Not applicable**
5. Water closet faucet: **Not applicable**
6. Bedroom vanity sink: **Color-matched solid surface sink**
7. Bedroom vanity faucet: **Designer, accent-matched faucet**
