PrevoSt Signs Contract with Greyhound for 61 X3-45 Motorcoaches

Sainte-Claire, QC, April 28, 2011 – The partnership between Greyhound and PrevoSt which began in 2007 continues with the signing of a new order for sixty-one (61) PrevoSt X3-45 motorcoaches. PrevoSt is proud that Greyhound has once again chosen PrevoSt as their primary coach supplier. The decision is based on PrevoSt's commitment to premium quality and timely delivery. The buses have been designed with features and options that meet the demanding needs of Greyhound and their customers.

Dann Wiltgen, PrevoSt Vice President of Corporate Accounts, comments, "The partnership between Greyhound and PrevoSt continues to expand beyond the traditional customer/supplier relationship. Going forward, I am confident our organizations will continue to share our expertise and synergies, maximizing our mutual success."

Equipped with Volvo D13 EPA 2010 engines and Allison transmissions, the coaches will provide a clean, fuel-efficient drive train. In addition, the coaches are outfitted with features placing a priority on passenger safety and comfort. PrevoSt safety features include the PrevoSt Electronic Stability Program, the Beru Tire Pressure Monitoring System and the Automatic Fire Suppression System. The 50-seat coaches also boast dual 1800 watt inverters powering 110 volt outlets and Wi-Fi Internet access throughout the coach cabin for each passenger. Other highlights include an Aesys electronic destination sign and PrevoSt's exclusive Swap & Plug wheelchair lift.

"Our customers have complimented the smooth ride of the PrevoSt coach we currently have in service, as well as the amenities we provide for their enjoyment," said Dave Leach, president and CEO, Greyhound Lines, Inc. "It is on our coaches where customers spend the majority of their time, so with the introduction of additional PrevoSt coaches to our fleet, we can continue to deliver a comfortable, safe and enjoyable ride for our customers."

Delivery of the first 35 X3-45 coaches is scheduled for May, June and July and the remaining 26 coaches will be delivered later in the year.
