

## Prevost Delivers Five H3-45 Motorcoaches to Pacific Western Toronto

**Sainte-Claire, QC, May 5, 2011** – Prevost recently delivered five new H3-45 motorcoaches to Pacific Western Toronto. The H-Series motorcoaches feature a collection of amenities designed to ensure passenger safety and enhance comfort.

The most innovative feature of the new motorcoaches is the Prevost AWARE System. AWARE provides Pacific Western with valuable information and takes actions which allow them to maintain safe driving practices. The Adaptive Cruise function adjusts the speed of the coach to maintain a safe following distance while in cruise control. The Impact Alert is always on and alerts drivers if the distance between coach and vehicle ahead closes too quickly, allowing the driver to take action. The Following Distance Alert is always on and reminds the driver to keep a safe following distance, reinforcing safe driving techniques.

“The features of the new AWARE system will assist our professional drivers and protect our customers”, says Dean Wright, Pacific Western Toronto General Manager. “This impressive safety technology enhances our shared vision of safety as our most important priority and a valuable tool that will assist us in our goal of being the safest bus company in North America.”

Interior amenities on the motorcoaches include comfortable leather seating, three point retractable seat restraints on all seats, and convenient cup and magazine holders. Passengers can also enjoy additional leg room and electrical outlets to charge their mobile devices such as laptops, smart phones, and media players. The coaches also feature an ISRI driver seat with three point seat belt.

“We are incredibly proud of our long standing partnership with Prevest”, says Wright. “They continue to provide us with top of class motorcoaches offering the most advanced safety features and passenger amenities.

The new Prevest H3-45 motorcoaches will join a Pacific Western fleet comprised of 56 and 47 passenger intercity motorcoaches, 29 passenger mini coaches and 44 passenger school buses.
