

1991 Prevost XL Marathon 40ft

Very well cared for and maintained Prevost Marathon Bus in exceptional condition with extensive upgrades. It drives like a dream and has always been stored indoors when not in use. We have owned this coach for the last 15 years. The coach is Alberta registered and Canadian taxes paid. It can be easily registered in the USA and is currently located in Palm Springs California.

Floor plan is a side aisle with large private bathroom. The bedroom features a upgraded LED TV, a queen sized bed, with plenty of storage under the bed, in many drawers and the large hanging closets with shelves. The bathroom has a full size shower with a residential style porcelain toilet. Separating the bathroom from the bedroom is a large double sided wardrobe closet with additional shelves and drawers. The kitchen has plenty of storage and counter space with an updated full sized 2 door stainless fridge and a 2 burner cooktop. The microwave convection oven has a large capacity and works very well. The large dining booth seats 4 comfortably and adds additional storage. The living room features an upgraded LED TV, Sonos Sound Bar, a large J-Bed couch with 2 barrel chairs and the passenger buddy seat can be rotated for additional seating. All new insulating window blinds are top down and bottom up for privacy and light control. Lighting has been upgraded to LED throughout the coach. There is a roof mounted Starlink system providing Internet and Wifi while traveling throughout the coach. It also has a Direct TV dish mounted to the roof of the coach. TV switching device installed that allows for watching any input (Direct TV, Apple TV, Streaming service, etc.) on any TV or one input on all TVs.

Air Conditioning is provided by 3 Cruise Air Conditioners (front, mid and bedroom) that have been serviced / rebuilt in 2023/24 and work extremely well. Heat is provided by 4 electric heaters when connected to shore power or the generator. In addition to a newer Webasto diesel boiler that is very effective at heating the coach, providing hot water, heating the tank bays and preheating the engine if needed. A new 20 gallon Whale Heat hot water tank installed by Marathon (2022) works on shore power or boiler and provides plenty of hot water. Heated utility bays provide for 160 gallons of freshwater, 100 gallons of gray water and 75 gallons of black water storage to the coach. Two high capacity water pumps provide abundant water pressure and redundancy when away from full hook ups. The 17.5 KW generator provides plenty of power to run all electrical needs. Further 2 upgraded Magnum 4000 watt Inverter / chargers provide quiet efficient power via 8 230 amp hour house batteries (replaced in 2022).

The drivers seat is a very comfortable and fully adjustable air ride seat. For the driver everything is accessible and features include new color backup camera, large Garmin RV GPS and TireMinder tire pressure / temperature monitor for all wheels and tow vehicle.

Under coach storage is impressive with a large pass through bay, two additional large storage bays and three tool storage drawers in a fourth bay located above the house batteries.

The coach has 167,000 miles and is powered by a Detroit 8V92 with a 5 speed Alison transmission and 2 stage Jake brake. In addition to yearly service the major mechanical updates include a new power steering pump, tune up and valves adjusted in 2021, new chassis batteries, all new Michelin tires installed, all new air bags and shocks, drive and tag brakes were replaced, all new Norgren valves installed in 2023, the alternator was replaced in 2024. The coach is scheduled for a full level 3 service at Prevost on Feb. 23, 2026.

This exceptional coach is priced to sell quickly at \$96,500 USD.
